Episode 182: Wind (Four Elements)

The Four Elements series continues with the element of Wind! In this episode, we're taking flight! The winds of content creation have guided us to... anyway... we're diving into the topic of Wind. While it might be the lightest of the elements, it can certainly pack a punch! Join us as we explore those who wield this element, how they do it, and its significance to humans and our cultures..

00:00:06.386 - 00:00:07.286

Diego: Hey, buddy.

00:00:07.286 - 00:00:08.426

Joshua: Yeah?

00:00:08.426 - 00:00:10.546

Diego: So, just asking for a friend, right?

00:00:10.546 - 00:00:16.326

Diego: If I were somebody who tends to pass gas a lot, a lot of flatulence is going on, not with me, with my friend.

00:00:16.326 - 00:00:21.446

Diego: What kind of like wind master manipulation person would that make me?

00:00:21.446 - 00:00:24.326

Diego: Would I practice like, Farknesses?

00:00:24.326 - 00:00:26.286

Diego: Flatulence-es?

00:00:26.286 - 00:00:29.646

Joshua: Well, I mean, I think maybe you're a Jit.

00:00:29.646 - 00:00:30.586

Diego: My friend.

00:00:30.586 - 00:00:31.426

Joshua: No, your friend's a Jit.

00:00:31.426 - 00:00:32.066

Joshua: Your friend's a Jit.

00:00:32.106 - 00:00:33.886

Diego: Yeah, let's go ahead and get started with the episode.

00:00:43.794 - 00:00:45.634

Diego: Welcome to Geekology 101.

00:00:45.634 - 00:00:46.794

Diego: My name is Diego.

00:00:46.794 - 00:00:48.334

Joshua: And my name is Joshua.

00:00:48.334 - 00:00:55.914

Diego: And today we are talking about the third element in our Four Elements series, and that is the element of wind.

00:00:55.914 - 00:00:58.634

Joshua: I mean, it's wind.

00:00:58.634 - 00:00:59.154

Diego: It's wind.

00:00:59.154 - 00:01:00.214

Joshua: It is, it is.

00:01:00.214 - 00:01:01.994

Diego: Wind, air, right?

00:01:01.994 - 00:01:12.694

Diego: Like there's, just like with the other ones, there's kind of a branching amount of subcategories and stuff that have to fit into this, because otherwise they don't fit anywhere else.

00:01:12.694 - 00:01:14.534

Diego: But yeah, the element of wind.

00:01:14.534 - 00:01:22.574

Diego: So starting off, looking at this one, like researching for this one, I didn't really think at first that I was going to have a lot to talk about here.

00:01:22.574 - 00:01:23.474

Joshua: Yeah, me too.

00:01:23.474 - 00:01:25.774

Diego: I always said that about water, I think, as well.

00:01:25.774 - 00:01:28.914

Diego: But this one was that, no, about Earth.

00:01:28.914 - 00:01:39.734

Diego: But this one was once again, pretty surprising once I started getting deeper and deeper into it, like how many the subcategories, the different examples of people or characters who control the thing.

00:01:39.834 - 00:01:41.314

Joshua: The different kinesises.

00:01:41.314 - 00:01:41.974

Diego: Yeah.

00:01:43.074 - 00:01:43.914

Diego: Pretty interesting.

00:01:43.914 - 00:01:50.554

Diego: So yeah, speaking of which, you know, because I have to be the geologist in charge of the kinesises.

00:01:50.554 - 00:01:51.874

Joshua: Yeah.

00:01:51.874 - 00:01:58.594

Diego: This one in particular is called, it has a couple of AKAs, but the most prevalent one is aerokinesis.

00:01:58.594 - 00:02:04.494

Diego: So this is the ability to mentally affect or move air or wind currents in some way.

00:02:04.494 - 00:02:06.654

Diego: Typically also, you can resist wind pressure.

00:02:06.654 - 00:02:12.274

Diego: So if you're like, you know, you have wind coming at you, you can technically like stand your ground against it.

00:02:12.274 - 00:02:16.354

Diego: You can move air particles to create vacuums to suffocate enemies.

00:02:16.354 - 00:02:17.834

Diego: That's pretty interesting.

00:02:17.834 - 00:02:22.034

Diego: You can send wind at an enemy, of course, with like gale force currents.

00:02:22.034 - 00:02:27.254

Diego: And because we're able to manipulate wind and air currents, we're able to technically levitate flight.

00:02:27.254 - 00:02:27.494

Joshua: Yeah.

00:02:27.494 - 00:02:34.474

Joshua: You know, which I think is something a lot of like air slash wind users use it for, like probably the main reason, honestly.

00:02:34.474 - 00:02:35.814

Diego: Yeah.

00:02:35.814 - 00:02:38.334

Diego: And then there's also like, you know, like bigger picture.

00:02:38.434 - 00:02:41.034

Diego: You can generate kind of like big weather phenomena, right?

00:02:41.034 - 00:02:44.754

Diego: Like cyclones, tornadoes, that sort of thing.

00:02:44.754 - 00:02:51.614

Diego: Some AKAs, anemokinesis, zephyrkinesis, spirokinesis.

00:02:53.054 - 00:02:58.914

Diego: Spirokinesis?

00:02:58.914 - 00:03:00.394

Diego: Spirokinesis.

00:03:00.394 - 00:03:01.194

Diego: Good job.

00:03:01.194 - 00:03:01.454

Diego: Thank you.

00:03:01.634 - 00:03:02.654

Diego: I tried my best.

00:03:02.654 - 00:03:05.874

Diego: And of course, just simple air manipulation.

00:03:05.874 - 00:03:07.514

Diego: But there's also some subcategories.

00:03:08.034 - 00:03:14.214

Diego: You got miasma kinesis, which is gas manipulation, which, you know, is the thing that my friend was asking about.

00:03:14.234 - 00:03:14.974

Joshua: Okay.

00:03:14.974 - 00:03:16.954

Diego: He wants to know which his kinesis is.

00:03:17.094 - 00:03:17.714

Joshua: Your friend.

00:03:17.714 - 00:03:18.214

Diego: My friend.

00:03:18.374 - 00:03:19.594

Diego: Not me, my friend.

00:03:19.594 - 00:03:25.874

Diego: Aerogenesis, which is generating breathable air, which is actually an interesting one that not a lot of...

00:03:25.874 - 00:03:28.474

Joshua: Being able to create air, not just like manipulating it.

00:03:29.414 - 00:03:30.154

Diego: That's interesting.

00:03:30.154 - 00:03:33.754

Diego: I've never really seen that, that I can think of.

00:03:33.754 - 00:03:34.474

Diego: Have you?

00:03:34.474 - 00:03:34.614

Joshua: No.

00:03:35.514 - 00:03:42.514

Diego: It'd be pretty interesting if somebody with that capability could technically help terraform a whole planet.

00:03:42.514 - 00:03:43.034

Joshua: Yeah.

00:03:43.034 - 00:03:43.534

Diego: In a way.

00:03:43.534 - 00:03:46.134

Diego: You know, like generate an atmosphere.

00:03:46.134 - 00:03:47.694

Diego: I have to think of it.

00:03:49.014 - 00:03:55.094

Diego: Man, four people who can control these four elements could technically terraform a planet.

00:03:55.094 - 00:03:55.394

Joshua: Yeah.

00:03:55.394 - 00:03:56.594

Joshua: They could probably create a planet.

00:03:57.414 - 00:03:58.114

<v SPEAKER_3>Whoa.

00:03:58.114 - 00:03:59.054

Diego: That's true.

00:03:59.054 - 00:04:00.554

<v SPEAKER_3>Yeah.

00:04:00.554 - 00:04:00.994

Diego: Yeah.

00:04:00.994 - 00:04:02.854

Diego: Combine asteroids.

00:04:02.854 - 00:04:05.654

Diego: One person heats it, another person cools it.

00:04:05.654 - 00:04:07.014

Diego: Water introduction.

00:04:07.014 - 00:04:07.714

Joshua: Yeah.

00:04:07.714 - 00:04:08.594

Diego: Wow.

00:04:08.754 - 00:04:09.814

Diego: That's a cool idea.

00:04:09.814 - 00:04:11.094

Joshua: Yeah.

00:04:11.094 - 00:04:14.914

Diego: Don't tell anybody, listeners, because we might do something with that idea.

00:04:14.914 - 00:04:20.294

Diego: Anyway, there's a lot of significance to air and wind.

00:04:20.314 - 00:04:24.754

Diego: Usually wind and air signify freedom, movement, communication.

00:04:25.174 - 00:04:27.234

Diego: That's one interesting thing about this.

00:04:27.234 - 00:04:37.994

Diego: Did you get it come across while you're doing your research, or you come across at all, like the whole thing of how much sound is woven into this ability and this element?

00:04:37.994 - 00:04:38.734

Joshua: No.

00:04:38.734 - 00:04:41.594

Diego: Because sound waves travel through air.

00:04:41.594 - 00:04:42.214

Joshua: Yeah.

00:04:42.214 - 00:04:44.454

Diego: So if there's no air, there's no sound.

00:04:44.454 - 00:04:44.994

Diego: Like in outer space.

00:04:44.994 - 00:04:46.234

Joshua: Like in space, yeah.

00:04:46.234 - 00:04:48.674

Joshua: Like in Alien.

00:04:48.674 - 00:04:49.694

<v SPEAKER_3>No one can hear you scream.

00:04:49.694 - 00:04:50.734

Joshua: Well, whatever that movie is.

00:04:51.354 - 00:04:52.294

Diego: It's interesting, right?

00:04:52.294 - 00:04:55.174

Diego: Like, it's easy to forget that.

00:04:55.174 - 00:04:55.914

Joshua: Yeah.

00:04:55.914 - 00:05:08.974

Diego: So technically, with wind, you can actually, if you're able to control wind in some way, you're able to make sound travel wherever you need it to.

00:05:08.974 - 00:05:09.314

Joshua: Yeah.

00:05:09.314 - 00:05:23.974

Joshua: Like if you could like create an air pathway, say like if you're in space, you create like an air pathway to another person, and then like you like snap in that pathway, the other person will be able to hear it, technically.

00:05:23.974 - 00:05:24.854

Diego: That's kind of cool.

00:05:24.854 - 00:05:25.454

Joshua: Yeah.

00:05:25.454 - 00:05:25.854

Diego: Yeah.

00:05:25.854 - 00:05:29.854

Diego: That's another thing that I haven't really seen done in any kind of storytelling.

00:05:31.294 - 00:05:32.434

Diego: What else?

00:05:34.934 - 00:05:41.514

Diego: It's associated, of course, with the actual like life force, because it's, you know, so it's an intricate part of our breath.

00:05:41.514 - 00:05:43.274

Joshua: It is technically our breath.

00:05:43.554 - 00:05:44.174

Joshua: Yeah.

00:05:44.174 - 00:05:53.894

Diego: And so that in itself, like ties it really, really closely to just the essence of life in the Biblical Genesis story.

00:05:53.894 - 00:05:59.874

Diego: You know, God breathes onto the man that he's created out of dust, and then he comes to life.

00:05:59.874 - 00:06:04.074

Diego: So breath is just very associated with the life force overall.

00:06:04.074 - 00:06:08.634

Diego: Also associated with things like lightness and adaptability, of course, you know, change.

00:06:08.934 - 00:06:15.454

Diego: You hear that a lot, like the winds of change and that sort of idea in Zodiac.

00:06:15.454 - 00:06:18.514

Diego: The air signs says we've been dropping those.

00:06:18.514 - 00:06:21.134

Diego: The air signs are Gemini, Libra and Aquarius.

00:06:21.134 - 00:06:23.814

Diego: That is my Zodiac sign.

00:06:23.814 - 00:06:26.614

Diego: My wife, Gwen, she is a Gemini.

00:06:26.634 - 00:06:29.254

Diego: And that's why we get along so well.

00:06:29.254 - 00:06:31.394

Joshua: Isn't it opposite to track them?

00:06:31.394 - 00:06:33.994

Diego: No, not at all.

00:06:33.994 - 00:06:36.154

Diego: In my experience, no way.

00:06:36.174 - 00:06:36.774

Joshua: Oh, okay.

00:06:37.074 - 00:06:42.714

Diego: Yeah, I've definitely gone along very well with Libras and Gemini, and other Aquarius.

00:06:42.714 - 00:06:43.694

Diego: We're all equally weird.

00:06:43.694 - 00:06:45.074

Joshua: Aquarius I.

00:06:45.074 - 00:06:46.534

Diego: Aquarius I, you could say.

00:06:46.534 - 00:06:48.614

Diego: Yes, indeed.

00:06:48.614 - 00:06:52.674

Diego: In mythology, a couple of points from mythology that I thought were interesting.

00:06:52.674 - 00:06:59.374

Diego: In Greek mythology, the Aether, it was like the pure essence that the gods breathe.

00:06:59.374 - 00:07:00.154

Diego: It was like their air.

00:07:00.154 - 00:07:01.954

Joshua: Like the thing in Thor, the Dark World?

00:07:01.954 - 00:07:03.654

Joshua: Like the red liquid?

00:07:03.654 - 00:07:04.934

Diego: Yeah, but not that, no.

00:07:05.354 - 00:07:07.154

Diego: I think there, it's like E-T-H-E-R.

00:07:08.614 - 00:07:13.054

Diego: And this is A-E-T-H-E-R, Aether.

00:07:13.054 - 00:07:15.694

Diego: And this was like the air that the gods breathe.

00:07:15.694 - 00:07:19.794

Diego: And it was eventually personified as like its own god, its own deity.

00:07:20.994 - 00:07:24.974

Diego: The Archangel Raphael is the Archangel of Air.

00:07:24.974 - 00:07:30.914

Diego: There's these creatures called Silphs, S-Y-L-P-H-S, Silphs.

00:07:32.074 - 00:07:38.394

Diego: And so they're supposed to be like these invisible beings of air.

00:07:38.394 - 00:07:43.034

Diego: And they're all often depicted as like graceful female spirits.

00:07:43.034 - 00:07:50.234

Diego: They were talked about by this German-Swiss physician in the 16th century called Paracelsus.

00:07:50.254 - 00:07:52.454

Diego: And yeah, pretty interesting.

00:07:52.454 - 00:07:58.514

Diego: So yeah, it's like woven into spirituality and mythology and all that stuff from our past.

00:07:58.614 - 00:08:01.694

Joshua: So I was wondering, huh, back to the zodiac signs.

00:08:02.974 - 00:08:07.114

Joshua: Are there what are the air people for St.

00:08:07.114 - 00:08:08.814

Joshua: Seiya?

00:08:08.814 - 00:08:11.494

Diego: That's actually yeah, I noted a couple of them.

00:08:12.754 - 00:08:17.194

Diego: There's Hioga, who is the sign of Cygnus, like the swan.

00:08:18.914 - 00:08:24.994

Diego: He, his powers are very, very much like air based.

00:08:24.994 - 00:08:31.094

Diego: He was trained by the golden warrior of of Aquarius.

00:08:31.834 - 00:08:35.394

Diego: And he was like, he trained like in the Arctic or something like that.

00:08:35.394 - 00:08:38.934

Diego: And all their powers are very much like they're related to freezing.

00:08:39.414 - 00:08:42.434

Diego: Yeah, they're very much used with like they use wind.

00:08:42.714 - 00:08:46.694

Diego: The entire power, like I think their entire power set is like wind based.

00:08:46.694 - 00:08:51.694

Diego: Basically, it's like really, really huge bursts of wind that freeze things.

00:08:51.694 - 00:08:53.234

Diego: So those are a couple.

00:08:53.234 - 00:09:00.174

Diego: And then there's a few other, there's a few other knights in Saint Seiya who control, who control wind in different forms.

00:09:03.394 - 00:09:08.294

Diego: All right, yeah, so let's talk about this, man, like this element in fiction.

00:09:09.034 - 00:09:15.194

Diego: What stood out to you as powerful wind users?

00:09:15.194 - 00:09:19.794

Joshua: Well, the first thing obviously is Aang from Avatar.

00:09:20.014 - 00:09:29.714

Diego: Go ahead, you're official, you're a designated geekologist in charge of Avatar and Naruto lore, so go ahead.

00:09:29.714 - 00:09:38.234

Joshua: Yeah, so basically, I mean, Aang, he can control all the elements by the end of the series, but his native element is airbending.

00:09:38.234 - 00:09:40.994

Joshua: And I mean, I talked about this in one of the other episodes.

00:09:40.994 - 00:09:48.174

Joshua: Every Avatar is like native to one of the four nations, and he was an air nomad.

00:09:48.274 - 00:09:55.654

Joshua: Basically, the Air Nation, they were nomads and monks, basically.

00:09:55.654 - 00:09:57.754

Joshua: They moved around constantly.

00:09:57.754 - 00:10:02.294

Joshua: They had different temples all over the planet, I guess.

00:10:02.294 - 00:10:18.634

Joshua: And during the whole Fire Nation thing, when the Fire Nation was taking over the world, basically, they destroyed all of the Air Nomad temples, and to the point where Aang was the only airbender left in the world.

00:10:18.634 - 00:10:28.314

Joshua: And then he got basically Captain America-style frozen in ice, and he was awoken 100 years later, I think.

00:10:28.314 - 00:10:33.334

Joshua: So, yeah, he was the only airbender left during the Avatar show.

00:10:33.334 - 00:10:36.394

Joshua: There came up more in The Legend of Korra.

00:10:36.394 - 00:10:38.114

Joshua: But yeah, he was...

00:10:39.574 - 00:10:40.314

Joshua: I'm pretty sure...

00:10:40.314 - 00:10:41.994

<v SPEAKER_3>I don't know.

00:10:41.994 - 00:10:42.754

Joshua: Yeah, he was...

00:10:42.754 - 00:10:43.554

Diego: Why did they target?

00:10:43.554 - 00:10:45.654

Diego: Why did the Fire Nation target the airbenders?

00:10:47.374 - 00:10:58.894

Joshua: Well, I mean, I guess they seemed like the easiest nation to kind of destroy because they're like monks and they don't really like choose violence.

00:10:58.894 - 00:11:01.374

Joshua: So I guess they like aim for them first.

00:11:01.374 - 00:11:04.774

Joshua: But yeah, Aang was the strongest.

00:11:04.774 - 00:11:06.294

Joshua: I mean, he was the only one.

00:11:06.294 - 00:11:09.094

Joshua: But at the time, he was the strongest airbender.

00:11:09.094 - 00:11:14.514

Joshua: And because he's the Avatar, his native element is obviously going to be pretty strong.

00:11:14.914 - 00:11:15.354

Diego: Yeah, of course.

00:11:15.354 - 00:11:19.274

Joshua: So yeah, and he also has this pet, Appa.

00:11:19.274 - 00:11:22.534

Joshua: And he's this like big air bison.

00:11:22.534 - 00:11:26.274

Joshua: And they're basically like the first ever airbenders.

00:11:26.274 - 00:11:28.254

Diego: Oh yeah, that creature that he rides on.

00:11:28.254 - 00:11:28.674

Joshua: Yeah.

00:11:28.674 - 00:11:30.214

Diego: An air bison is what they're called?

00:11:30.214 - 00:11:31.954

Joshua: Yeah.

00:11:31.954 - 00:11:35.394

Joshua: I forgot what the actual animal name is.

00:11:35.394 - 00:11:39.954

Joshua: But that's where the people actually got airbending from.

00:11:39.954 - 00:11:47.454

Joshua: Because in the Avatar lore, the animals were the first to kind of create the bending techniques.

00:11:47.454 - 00:11:48.154

<v SPEAKER_3>Okay.

00:11:48.154 - 00:11:54.594

Joshua: And the air bison were the first creatures to use airbending.

00:11:54.594 - 00:11:55.694

Diego: So how do they use it?

00:11:55.694 - 00:11:56.434

<v SPEAKER_3>By flying?

00:11:56.434 - 00:11:57.394

Joshua: Yeah, flying basically.

00:11:57.394 - 00:12:01.534

Diego: That creature has always reminded me of that giant furry dragon from...

00:12:01.994 - 00:12:03.054

Joshua: Never Ending Stories.

00:12:03.054 - 00:12:04.554

Joshua: Yeah.

00:12:04.554 - 00:12:06.674

<v SPEAKER_3>Yeah.

00:12:06.674 - 00:12:07.134

Diego: Okay.

00:12:07.134 - 00:12:11.134

Diego: So any other notable airbenders in that show?

00:12:13.054 - 00:12:23.674

Joshua: Well, I haven't actually watched The Legend of Korra, so there's definitely some in that show, but in Avatar, he's pretty much the only one.

00:12:23.674 - 00:12:24.134

<v SPEAKER_3>Okay.

00:12:24.134 - 00:12:24.774

Diego: Really?

00:12:24.774 - 00:12:26.154

Joshua: Yeah.

00:12:26.154 - 00:12:28.654

Joshua: I mean, the show is called Avatar, The Last Airbender.

00:12:30.194 - 00:12:30.854

<v SPEAKER_3>Oh, my God.

00:12:30.854 - 00:12:32.134

Diego: I don't know why I never realized that.

00:12:32.134 - 00:12:33.874

<v SPEAKER_3>Dumb.

00:12:33.874 - 00:12:34.514

Diego: That's okay.

00:12:34.514 - 00:12:36.154

Diego: That makes sense.

00:12:36.154 - 00:12:36.434

Diego: Okay.

00:12:36.434 - 00:12:37.914

Diego: Cool.

00:12:37.914 - 00:12:38.154

Diego: Let's see.

00:12:38.154 - 00:12:40.674

Diego: I'll give you one of mine.

00:12:41.034 - 00:12:50.994

Diego: There's like a bunch in the comics and stuff, and in like Marvel and DC cartoon shows throughout the years, there's been a whole bunch of air users or air powered people.

00:12:50.994 - 00:12:56.054

Diego: There's one called Aero, as in like A-E-R-O.

00:12:57.474 - 00:12:58.914

Diego: She's this Lei Ling.

00:12:58.914 - 00:13:00.534

Diego: She's this Chinese character.

00:13:00.534 - 00:13:04.694

Diego: She's an architect who has like the air-based superpowers of different sorts.

00:13:04.694 - 00:13:07.314

Diego: But in her case, like it's connected to her Chi.

00:13:07.314 - 00:13:08.234

Diego: Yeah.

00:13:08.234 - 00:13:09.194

Diego: Which is kind of cool.

00:13:09.194 - 00:13:16.554

Diego: You don't see like spiritual origins for powers much in comics, like in Marvel and DC.

00:13:16.554 - 00:13:18.734

Diego: And you got over in the DC side, you got Red Tornado.

00:13:18.734 - 00:13:19.954

Joshua: Yeah, I was going to say that too.

00:13:20.254 - 00:13:20.714

Joshua: Yeah.

00:13:20.714 - 00:13:21.434

Diego: Red Tornado.

00:13:21.434 - 00:13:29.114

Diego: I think the first time that I really saw him was in the team, Young Justice show.

00:13:29.114 - 00:13:29.774

Joshua: Really?

00:13:29.774 - 00:13:30.994

<v SPEAKER_3>Yeah.

00:13:30.994 - 00:13:32.194

Diego: I don't really.

00:13:33.314 - 00:13:40.334

Diego: I didn't really like if he was in in Justice League Unlimited back in the day, I definitely didn't like compute him.

00:13:40.334 - 00:13:42.474

Joshua: He was in I don't know.

00:13:42.474 - 00:13:48.294

Joshua: I don't know which CW show it was, but he was in The Flash, I think.

00:13:49.594 - 00:13:52.294

Diego: Yeah.

00:13:52.294 - 00:13:53.874

Diego: Could it have been Stargirl, maybe?

00:13:53.874 - 00:13:55.194

Joshua: Oh, Supergirl, I think.

00:13:55.194 - 00:13:56.334

Joshua: It was probably Supergirl.

00:13:56.334 - 00:13:56.734

Joshua: Yeah.

00:13:56.734 - 00:13:57.434

Diego: Yeah.

00:13:57.434 - 00:13:59.574

Diego: Well, that guy has an interesting story.

00:13:59.574 - 00:14:06.654

Diego: He was formed with the merger of an Android body and the tornado champion from Planet Ran.

00:14:06.654 - 00:14:08.834

Diego: So he's like not fully Android.

00:14:08.834 - 00:14:12.334

Joshua: He actually has like, he's like an alien Android.

00:14:12.334 - 00:14:13.854

Diego: Yeah, that was interesting.

00:14:13.854 - 00:14:16.754

Joshua: Oh, I was wondering because I just now like realize this.

00:14:18.194 - 00:14:22.354

Joshua: Vision and Red Tornado, one of them is a copy of the other.

00:14:23.554 - 00:14:26.794

Joshua: And I don't know which one came first.

00:14:26.794 - 00:14:34.854

Diego: Well, but Red Tornado definitely stands out as being a bit more different because of his whole wind manipulation.

00:14:34.854 - 00:14:35.654

Joshua: Yeah.

00:14:35.654 - 00:14:36.154

Diego: Yeah.

00:14:36.154 - 00:14:39.534

Diego: He actually has a granddaughter in DC, in the DC comics.

00:14:39.534 - 00:14:43.754

Diego: Her name is Cyclone and she's the granddaughter to the original Red Tornado.

00:14:44.534 - 00:14:48.054

Joshua: Is she the one who was in that Black Adam movie?

00:14:49.714 - 00:14:50.714

Diego: Black Adam movie?

00:14:50.714 - 00:14:51.334

Joshua: Yeah.

00:14:51.334 - 00:14:51.914

Joshua: With Dr.

00:14:51.914 - 00:14:53.974

Joshua: Fate, like his whole crew.

00:14:53.974 - 00:14:55.114

Joshua: There was that girl who could...

00:14:55.194 - 00:14:55.874

Diego: Oh, yeah.

00:14:55.874 - 00:14:57.174

Diego: I know who you're talking about.

00:14:57.174 - 00:14:58.534

Diego: I don't think that was Cyclone.

00:14:58.534 - 00:14:59.874

Diego: I don't remember that name.

00:14:59.874 - 00:15:04.914

Diego: I think I recall looking up the character's name and it was something different.

00:15:04.914 - 00:15:06.634

Diego: But yeah, she's interesting, actually.

00:15:06.634 - 00:15:08.154

Diego: Didn't she?

00:15:08.154 - 00:15:10.714

Joshua: She does have air powers, though.

00:15:10.714 - 00:15:12.014

Diego: Yeah, she does, for sure.

00:15:12.014 - 00:15:13.754

Diego: Couldn't she turn into gas or something?

00:15:14.794 - 00:15:16.134

<v SPEAKER_3>I'm not sure.

00:15:16.134 - 00:15:18.734

Diego: But yeah, that character, I forgot to look her up.

00:15:18.734 - 00:15:20.094

Diego: That's a good example.

00:15:20.714 - 00:15:31.494

Diego: There's another Cyclone in the Marvel side who's like this very smart guy and he designed a costume that accelerates air all around him to up to 300 miles per hour.

00:15:31.494 - 00:15:33.814

Joshua: So he's constantly surrounded by air?

00:15:33.814 - 00:15:34.454

Diego: Yeah.

00:15:34.454 - 00:15:37.434

Diego: And at a radius of up to 100 feet around him.

00:15:37.434 - 00:15:41.494

Diego: So he could either contract it and make himself fly and stuff.

00:15:42.134 - 00:15:43.794

Diego: Yeah, it could act as a force field.

00:15:43.794 - 00:15:45.954

Diego: And of course, he could use it to attack people.

00:15:45.954 - 00:15:53.594

Diego: Like he could do tornado force winds all around him and use whirlwinds to fly and throw at an enemy or whatever.

00:15:53.594 - 00:15:55.134

Diego: So there's that guy.

00:15:56.474 - 00:15:58.434

Diego: Let me see who else from the comics.

00:15:58.434 - 00:16:00.634

Diego: There's a Marvel villain called World Wind.

00:16:00.634 - 00:16:01.614

Diego: This way is weird.

00:16:01.614 - 00:16:02.914

Diego: He's a mutant.

00:16:02.914 - 00:16:06.614

Diego: So he spins his body at high speeds.

00:16:06.614 - 00:16:07.414

Joshua: Like the top?

00:16:08.194 - 00:16:09.474

Diego: Yes.

00:16:09.474 - 00:16:12.094

Diego: I think he was actually known as the top.

00:16:12.094 - 00:16:12.634

Joshua: Really?

00:16:12.634 - 00:16:13.834

Diego: Yeah.

00:16:13.834 - 00:16:15.294

Diego: Weird ability.

00:16:15.494 - 00:16:16.154

Joshua: Yeah.

00:16:16.154 - 00:16:17.394

Diego: Like spinning his body.

00:16:17.394 - 00:16:17.934

Joshua: I'm not gonna lie.

00:16:18.354 - 00:16:22.154

Joshua: Some mutants, some mutant abilities are useless.

00:16:22.154 - 00:16:27.834

Joshua: And a lot of the times they like negatively affect the user, the host, whatever.

00:16:28.054 - 00:16:28.534

Diego: I agree.

00:16:28.534 - 00:16:32.794

Diego: And like, it's weird because you're gonna get that.

00:16:32.794 - 00:16:39.794

Diego: Like, if you have truly, like, randomly distributed powers by nature or whatever, you're gonna get that.

00:16:39.794 - 00:16:50.234

Diego: You're bound to have a whole bunch of powers that are essentially useless unless you're trained somehow, you know, to operate as a team with other powered people.

00:16:50.234 - 00:16:51.034

Joshua: Yeah.

00:16:51.034 - 00:16:52.654

Diego: Like MHA.

00:16:52.654 - 00:16:53.034

Joshua: Yeah.

00:16:53.054 - 00:16:57.254

Diego: MHA is a really good example of, like, random powers generating.

00:16:57.574 - 00:17:01.954

Diego: And the ones that you feel are the most useless suddenly are, like, super useful.

00:17:01.954 - 00:17:04.054

Diego: We were talking about some Mentax the other day.

00:17:04.054 - 00:17:04.554

Joshua: Yeah.

00:17:04.554 - 00:17:05.854

Diego: With the water one.

00:17:05.854 - 00:17:06.834

Joshua: No, with the stuff.

00:17:06.834 - 00:17:07.454

Joshua: With Earth.

00:17:07.454 - 00:17:07.794

Joshua: Yeah.

00:17:07.794 - 00:17:08.834

<v SPEAKER_3>Yeah.

00:17:08.834 - 00:17:09.854

Diego: But he's a really good example.

00:17:09.854 - 00:17:12.534

Diego: Like, you know, it's like, yeah, how is he gonna use it?

00:17:12.534 - 00:17:16.234

Diego: But boom, took down, dismantled the whole fortress from the enemy.

00:17:16.234 - 00:17:20.774

Joshua: Like that, that tape guy, the guy who can, like, shoot tape.

00:17:20.774 - 00:17:22.174

Joshua: Yeah, that seems useless, too.

00:17:22.174 - 00:17:26.834

Joshua: It seems useless, but he ended up, like, teaching Deku how to use his Black Whip ability.

00:17:27.074 - 00:17:27.994

Diego: So.

00:17:27.994 - 00:17:29.554

Diego: And speaking of MA.

00:17:29.554 - 00:17:36.934

Diego: Che, there's a couple of interesting Wind Quirk users in that show or in the manga.

00:17:36.934 - 00:17:40.114

Diego: You've got this one called Cozy.

00:17:40.114 - 00:17:43.494

Diego: Her name is Cozy, and she's from that Class 1B.

00:17:45.054 - 00:17:47.594

Diego: Remember when they went up against each other?

00:17:48.954 - 00:17:55.434

Diego: And they're able to solidify air to form platforms or walls of air.

00:17:55.434 - 00:17:58.434

Diego: And they're like damn near impenetrable.

00:17:58.434 - 00:18:00.114

Diego: So they can resist attacks, obviously.

00:18:00.234 - 00:18:01.574

Joshua: Like solid air?

00:18:01.574 - 00:18:02.914

Diego: Yeah, like solidifying air.

00:18:02.914 - 00:18:04.234

Diego: It's pretty interesting.

00:18:05.474 - 00:18:08.234

Diego: And she has like, you know how they like named their certain abilities?

00:18:08.474 - 00:18:09.094

Diego: Yeah.

00:18:09.094 - 00:18:15.154

Diego: This, they, she named one ability called Air Prison, where she like puts somebody in a cube of air.

00:18:15.154 - 00:18:15.614

Joshua: That's pretty cool.

00:18:15.614 - 00:18:16.314

Diego: And traps them in there.

00:18:16.314 - 00:18:17.714

Diego: Yeah, it is pretty useful.

00:18:17.714 - 00:18:22.994

Diego: But then probably the more notable one is Inasa Yoroshi.

00:18:22.994 - 00:18:25.214

Diego: You know that guy who looks like he dresses like M.

00:18:25.214 - 00:18:27.134

Diego: Bison from Street Fighter?

00:18:27.134 - 00:18:28.354

Joshua: Yeah, that's him.

00:18:28.354 - 00:18:29.574

Diego: Yeah, that's that guy.

00:18:29.574 - 00:18:32.834

Diego: And so his quirk is called World Wind.

00:18:32.834 - 00:18:39.034

Diego: And he's a first year student at Shiketsu High, and they had like that whole, what was it, the licensing, I think?

00:18:39.214 - 00:18:42.414

Joshua: Yeah, where they have to like, there's like a simulation or whatever.

00:18:42.834 - 00:18:43.314

Joshua: Yeah.

00:18:43.314 - 00:18:45.114

Diego: Yeah.

00:18:45.114 - 00:18:49.334

Diego: So yeah, that guy is pretty, a pretty strong wind user, I feel like.

00:18:49.334 - 00:18:50.394

Diego: He was pretty cool.

00:18:50.394 - 00:18:54.594

Diego: Is there anybody else in MA-Chai that you can think of that had wind based powers?

00:18:54.594 - 00:18:55.674

Diego: I feel like there is somebody.

00:18:55.674 - 00:18:59.034

Joshua: Deku actually, you remember Deku's Air Force gloves?

00:19:00.294 - 00:19:00.814

Joshua: Yeah.

00:19:00.814 - 00:19:01.694

Joshua: His whole thing.

00:19:01.694 - 00:19:02.414

Joshua: That's right.

00:19:02.414 - 00:19:04.074

Diego: He could propel himself with it too.

00:19:04.074 - 00:19:04.714

Joshua: Yeah.

00:19:04.714 - 00:19:07.334

Diego: He could have Air Force boots or something?

00:19:07.334 - 00:19:07.714

Joshua: I don't know.

00:19:07.714 - 00:19:08.374

Joshua: I'm not sure.

00:19:08.374 - 00:19:12.294

Joshua: But I remember he could quickly release air.

00:19:12.734 - 00:19:18.854

Joshua: Because he went to that one girl who could build.

00:19:18.994 - 00:19:19.614

Joshua: Yeah.

00:19:19.634 - 00:19:20.174

Diego: Accessory.

00:19:20.174 - 00:19:20.434

Diego: Yeah.

00:19:20.434 - 00:19:20.774

Joshua: Yeah.

00:19:22.074 - 00:19:25.134

Joshua: Because he didn't want to keep breaking his fingers all the time.

00:19:25.254 - 00:19:25.614

Diego: Right.

00:19:25.614 - 00:19:27.534

Joshua: So he by like flicking.

00:19:27.534 - 00:19:29.034

Joshua: So he just used like air.

00:19:29.034 - 00:19:30.954

Joshua: It's like like propel.

00:19:30.954 - 00:19:32.434

Diego: That's pretty cool.

00:19:32.434 - 00:19:32.874

Diego: Yeah, that's right.

00:19:32.874 - 00:19:33.714

Diego: I forgot about that.

00:19:33.714 - 00:19:34.254

Diego: That's right.

00:19:34.254 - 00:19:37.214

Diego: I mean, that dude has like a conglomerate of power.

00:19:37.214 - 00:19:41.094

Diego: So, yeah, one of them had to be related to that element.

00:19:43.094 - 00:19:52.474

Diego: You know, speaking of that of Cozy, the one that does like the air barrier thing, there's I got kind of like a list of air adjacent, powerful people.

00:19:53.814 - 00:19:59.474

Diego: Like, they're not exactly controlling air, but it's like related to it.

00:19:59.474 - 00:20:05.154

Diego: So, for example, one that I've really thought really hard about is Sue Storm, the invisible woman.

00:20:05.154 - 00:20:09.934

Diego: Yeah, like her thing uses more like light.

00:20:09.934 - 00:20:11.554

Joshua: Yeah, because she bends light.

00:20:11.714 - 00:20:13.234

<v SPEAKER_3>Right.

00:20:13.234 - 00:20:18.414

Diego: But I don't know how light can become a solid thing.

00:20:18.414 - 00:20:19.054

Diego: I feel like it's a...

00:20:21.374 - 00:20:27.734

Diego: There's this really interesting thing where the Fantastic Four are always compared to the Four Elements of nature.

00:20:27.734 - 00:20:29.674

<v SPEAKER_3>Think about it.

00:20:29.674 - 00:20:30.574

Joshua: Well, I mean, yeah.

00:20:30.574 - 00:20:32.174

Diego: Ben Grim, Earth.

00:20:32.174 - 00:20:34.394

Diego: Johnny Storm, obviously, Fire.

00:20:34.394 - 00:20:34.674

Diego: Mr.

00:20:34.674 - 00:20:36.114

Diego: Fantastic, Water.

00:20:36.114 - 00:20:37.394

Joshua: Yeah, flowing.

00:20:38.834 - 00:20:41.934

Diego: And then Sue Storm is compared with air.

00:20:41.934 - 00:20:48.534

Joshua: I mean, because do you think her force fields are like making solid air?

00:20:48.994 - 00:20:50.734

Diego: And so they're not technically they're not.

00:20:50.734 - 00:20:58.974

Diego: They're still like, from everything that I read, it's all related to light, which is weird, right?

00:20:58.974 - 00:21:01.594

Joshua: How does light turn into a force?

00:21:01.594 - 00:21:05.054

Joshua: I get obviously how light could turn someone invisible because you're right.

00:21:05.294 - 00:21:05.854

Joshua: Like around.

00:21:05.854 - 00:21:06.774

Diego: Yeah, exactly.

00:21:06.774 - 00:21:08.974

Joshua: But how does force fields have to do with light?

00:21:09.014 - 00:21:12.594

Diego: I have no idea, but that's always seemed to me very weird.

00:21:12.594 - 00:21:20.314

Diego: And I always end up like landing on the idea that she she has to.

00:21:20.314 - 00:21:29.754

Diego: It has to somehow involve the air molecules like I just can't imagine light becoming a solid, but I can imagine air becoming a solid.

00:21:29.774 - 00:21:32.854

Diego: Yeah, you know, it's easier to, I think, imagine that.

00:21:32.854 - 00:21:44.294

Diego: But anyway, that's always been really interesting to me since we're in this four elements series, like the fact that the Fantastic Four are like representative of the four elements of nature, and Soot Storm lands in that air category.

00:21:45.934 - 00:22:03.314

Diego: Other adjacent people, I don't know if you came across this in your research, but for some reason, every super family, like Superman related character from Krypton, it lands in the category of air users because of the-

00:22:03.314 - 00:22:04.294

Joshua: Oh, the ice breath.

00:22:04.354 - 00:22:06.994

Diego: The freezing breath and the fact that they fly.

00:22:08.094 - 00:22:15.114

Diego: I don't know if their flight has to do with air as much as it has to do, I guess, with gravity, the relationship to Earth's gravity.

00:22:15.114 - 00:22:17.954

Diego: I don't know if that's ever been explained.

00:22:17.954 - 00:22:20.274

Diego: I've never been deep into Superman.

00:22:20.274 - 00:22:26.894

Diego: I've not been deep enough that I could know if his flight has ever been explained scientifically in the comics.

00:22:29.014 - 00:22:32.054

Diego: But those people are definitely always associated with that.

00:22:32.174 - 00:22:36.294

Diego: Flash is another one that is associated with air and wind.

00:22:36.294 - 00:22:38.934

Diego: Of course, the speed generates a lot of wind.

00:22:38.934 - 00:22:42.354

Joshua: But also, he has that thing where he moves his hands.

00:22:42.354 - 00:22:43.274

Joshua: Yep.

00:22:43.274 - 00:22:44.134

Diego: The vortex thing.

00:22:44.134 - 00:22:44.674

Joshua: Yeah.

00:22:44.674 - 00:22:46.414

Diego: Yeah, it creates whirlwinds.

00:22:46.414 - 00:22:51.314

Diego: And he uses that quite a bit, like a surprising amount, actually.

00:22:51.314 - 00:23:03.034

Diego: He uses that whole thing of like, he uses air a lot to his advantage by shooting the vortexes, by surrounding the enemy and creating a tornado, basically, to disorient them or whatever.

00:23:04.114 - 00:23:05.754

Diego: Yeah, he uses it quite a bit.

00:23:05.754 - 00:23:17.174

Joshua: Oh, I wanted to mention, and this is like kind of really a pretty small thing, but Hulk, how he always, you know, he has that like move that he always pulls out, where he does that like clap.

00:23:17.174 - 00:23:17.874

Joshua: Yeah.

00:23:17.874 - 00:23:20.454

Joshua: And there's like a shh and like knocks people back.

00:23:20.734 - 00:23:23.094

Diego: And it's definitely like a sound and air thing.

00:23:23.094 - 00:23:23.374

Joshua: Yeah.

00:23:23.374 - 00:23:23.834

Diego: Absolutely.

00:23:23.834 - 00:23:33.534

Joshua: I remember in that Avengers game, one of his like specials or ultimates or whatever was that he would do the clap and like all the opponents would be like forced back.

00:23:33.534 - 00:23:34.254

Diego: Yeah.

00:23:34.254 - 00:23:36.834

Diego: He does it in the Incredible Hulk movie.

00:23:36.834 - 00:23:37.334

Joshua: He does?

00:23:37.334 - 00:23:40.094

Diego: The one, the MCU one, yeah.

00:23:40.094 - 00:23:40.514

Diego: Yeah.

00:23:40.754 - 00:23:48.154

Diego: I think that's how he like either ultimately knocks out, no, no, he knocks out abomination by strangling him.

00:23:49.414 - 00:23:52.614

Diego: But he disorients him at some point with the clap, for sure.

00:23:54.974 - 00:23:56.154

Diego: Powerpuff Girls, do you ask?

00:23:56.154 - 00:23:59.754

Diego: Yes, there is a Powerpuff Girl who can do stuff with air.

00:23:59.754 - 00:24:01.514

Diego: Her name is Blossom.

00:24:01.514 - 00:24:02.734

Diego: She has ice breath.

00:24:02.734 - 00:24:09.054

Diego: So she lands into this category of air adjacent people because she's not like full air controller.

00:24:09.054 - 00:24:09.874

Diego: What do you think of Thor?

00:24:11.814 - 00:24:18.014

Diego: I would say he's kind of similar to Storm in the sense that he can cause a weather phenomena.

00:24:18.014 - 00:24:24.614

Joshua: I would say more Storm because Thor, his whole thing, he's the god of lightning, god of thunder.

00:24:24.614 - 00:24:27.374

Joshua: Storm can more control.

00:24:27.374 - 00:24:34.094

Joshua: But the thing about that is that they always say Storm is the mistress of the elements.

00:24:34.314 - 00:24:37.314

Joshua: I've never seen Storm control fire, really.

00:24:38.214 - 00:24:38.494

Diego: Yeah.

00:24:38.494 - 00:24:40.734

Diego: No, I don't think they mean like the four elements.

00:24:40.734 - 00:24:41.054

Joshua: Yeah.

00:24:41.054 - 00:24:43.234

Diego: I think they're talking about like the elements of weather.

00:24:43.234 - 00:24:43.834

Joshua: Yeah.

00:24:43.834 - 00:24:45.654

Joshua: But she can definitely control wind.

00:24:45.654 - 00:24:45.974

Joshua: Yeah.

00:24:45.974 - 00:24:46.694

Joshua: She does that a lot.

00:24:46.694 - 00:24:47.154

Diego: Absolutely.

00:24:47.154 - 00:24:47.374

Diego: Yeah.

00:24:47.374 - 00:24:50.074

Diego: She can definitely like summon wind and make it do things.

00:24:50.074 - 00:24:50.934

Joshua: Yeah.

00:24:50.934 - 00:24:52.754

Diego: And that's how she flies too.

00:24:52.754 - 00:24:59.754

Diego: As a matter of fact, I think when she flies, they usually show her like, they show little whirlwinds around her or under her or something.

00:24:59.754 - 00:24:59.974

Diego: Yeah.

00:24:59.974 - 00:25:05.794

Diego: So Storm is definitely on my list as a as a wheel, as a true wielder of wind, as a power.

00:25:07.754 - 00:25:08.814

Diego: Who else you got on your list?

00:25:15.456 - 00:25:17.016

<v SPEAKER_3>That's it?

00:25:17.016 - 00:25:19.536

Joshua: No, I had somebody else.

00:25:19.536 - 00:25:22.136

Joshua: Hold on, hold on, hold on.

00:25:22.136 - 00:25:23.016

Diego: Well, I got a couple more people.

00:25:23.016 - 00:25:27.756

Joshua: Oh, actually, actually, Naruto himself.

00:25:27.756 - 00:25:29.856

Diego: Oh, he controls wind?

00:25:29.856 - 00:25:30.716

Joshua: Technically.

00:25:30.716 - 00:25:35.376

Joshua: So in Naruto, they have like styles of fighting.

00:25:35.376 - 00:25:39.876

Joshua: There's like wind style, water style, wood style.

00:25:39.876 - 00:25:43.256

Joshua: And Naruto, most of his attacks are wind style.

00:25:43.936 - 00:25:44.996

Joshua: And he has this attack.

00:25:44.996 - 00:25:47.876

Joshua: He always uses Rasen Shuriken.

00:25:47.876 - 00:25:52.836

Joshua: And like he always shouts out like wind style, Rasen Shuriken.

00:25:52.836 - 00:25:58.756

Joshua: And it's just like kind of controlled air into like the form of like a big shuriken.

00:25:58.756 - 00:25:59.296

Diego: Yeah.

00:25:59.296 - 00:26:03.096

Joshua: And it's kind of like a hair into the form of a throwing star.

00:26:03.096 - 00:26:03.836

Joshua: Yeah.

00:26:03.836 - 00:26:04.256

Diego: Huh.

00:26:04.256 - 00:26:04.936

Diego: Okay.

00:26:04.936 - 00:26:09.336

Joshua: And it's kind of like a Hadouken or something, I guess.

00:26:09.336 - 00:26:09.576

Diego: Okay.

00:26:09.756 - 00:26:15.856

Joshua: And it's he kind of just like forms air into like the shape of a sharp shuriken.

00:26:15.856 - 00:26:17.516

Joshua: And like, yeah.

00:26:18.776 - 00:26:22.916

<v SPEAKER_3>Okay.

00:26:22.916 - 00:26:27.176

Diego: I know that there's more in the world of of of of anime.

00:26:27.176 - 00:26:27.536

Joshua: Yeah.

00:26:27.536 - 00:26:36.156

Diego: Seeing I want to say that somewhere in Dragon Ball, there's somebody who controls wind in some way, but I can't put my finger on who.

00:26:37.536 - 00:26:42.596

Diego: If only there was like a world wide search engine that I could use to give me this answer.

00:26:42.596 - 00:26:44.616

Diego: One day we will reach such technologies.

00:26:44.616 - 00:26:45.236

Joshua: Yeah.

00:26:45.256 - 00:26:46.396

Diego: One day.

00:26:46.396 - 00:26:53.756

Diego: But in Mortal Kombat, there's a couple of people who have like, yeah, I knew wind related stuff.

00:26:53.756 - 00:26:55.296

Joshua: I forgot what his name was.

00:26:55.296 - 00:26:57.236

Joshua: He has he has like white hair or something.

00:26:57.236 - 00:26:58.536

Diego: Yeah.

00:26:58.536 - 00:26:59.536

Diego: What's that guy's name, man?

00:27:00.956 - 00:27:01.336

Diego: Rain.

00:27:01.336 - 00:27:05.876

Diego: I know rain, I think is able to do some stuff with wind.

00:27:05.876 - 00:27:07.136

Diego: The ninja guy.

00:27:07.136 - 00:27:08.196

Joshua: Smoke.

00:27:08.196 - 00:27:08.756

Joshua: Smoke.

00:27:08.756 - 00:27:09.956

Joshua: Can control smoke.

00:27:09.956 - 00:27:10.416

Diego: Yeah.

00:27:10.416 - 00:27:11.696

Diego: You can turn into smoke.

00:27:11.696 - 00:27:12.036

Joshua: Yeah.

00:27:12.036 - 00:27:13.116

Diego: Into smoke.

00:27:13.116 - 00:27:13.576

Diego: Yeah.

00:27:13.576 - 00:27:18.676

Diego: And that's actually one of those like adjacent abilities.

00:27:18.676 - 00:27:23.276

Diego: Miasma kinesis or aerob, yeah, Miasma kinesis, gas manipulation.

00:27:24.556 - 00:27:26.756

Diego: And there's like a lot of Pokemon that do this.

00:27:27.096 - 00:27:29.636

Diego: You know a Pokemon that is like three rocky heads floating?

00:27:29.636 - 00:27:30.476

Joshua: Yeah.

00:27:30.476 - 00:27:34.396

Diego: That Pokemon has like gas, so it was like spewing gas and stuff.

00:27:35.676 - 00:27:38.076

Diego: Who else does gas related things?

00:27:39.936 - 00:27:41.576

Diego: But definitely smoke.

00:27:41.576 - 00:27:47.856

Diego: And I know the guy that you're talking about from Mortal Kombat, he's, I think he's like a god.

00:27:49.036 - 00:27:49.336

Joshua: Yeah.

00:27:49.416 - 00:27:51.536

Joshua: Yes.

00:27:51.536 - 00:27:57.096

Joshua: I'm not sure, but I know that he does control wind like pretty directly.

00:27:57.096 - 00:27:57.836

Diego: Fujin.

00:27:57.836 - 00:27:58.256

Joshua: Yeah.

00:27:58.756 - 00:28:00.316

Diego: That's his name.

00:28:00.316 - 00:28:00.616

Diego: Yeah.

00:28:00.616 - 00:28:04.076

Diego: That guy definitely controls wind.

00:28:05.396 - 00:28:05.856

Diego: Who else?

00:28:05.856 - 00:28:06.516

Diego: Let's see.

00:28:07.376 - 00:28:09.456

Diego: There's certain several characters in Ninjago.

00:28:10.136 - 00:28:10.296

Diego: Yeah.

00:28:10.296 - 00:28:14.976

Diego: Because Ninjago plays a lot with that mystical kind of stuff of the elements.

00:28:14.976 - 00:28:20.536

Diego: There's this one big villain called Moro, who was an elemental master of wind.

00:28:20.536 - 00:28:23.476

Diego: And he was, I think, one of the main villains in one of those seasons or movies.

00:28:23.496 - 00:28:23.776

Joshua: Yeah.

00:28:23.776 - 00:28:26.916

Joshua: It's been so long since I watched that show.

00:28:26.916 - 00:28:27.056

Diego: Yeah.

00:28:27.056 - 00:28:27.756

Diego: I know.

00:28:27.756 - 00:28:28.876

Diego: You got into it pretty deeply.

00:28:28.996 - 00:28:29.216

Joshua: Yeah.

00:28:29.216 - 00:28:29.896

Joshua: I watched.

00:28:30.356 - 00:28:31.916

Joshua: I was going to really like it.

00:28:31.916 - 00:28:33.356

Joshua: It's a good show, too.

00:28:33.356 - 00:28:33.876

Diego: Is it?

00:28:33.876 - 00:28:35.276

Joshua: Yeah.

00:28:35.276 - 00:28:40.876

Diego: Um, then I mean, enough that you ended up like cosplaying for Halloween.

00:28:40.876 - 00:28:41.296

Joshua: Yeah.

00:28:41.296 - 00:28:43.136

Diego: For Halloween, I said.

00:28:44.956 - 00:28:46.016

Diego: Sailor Moon.

00:28:46.016 - 00:28:54.356

Diego: There's one of the squad, Sailor Moon squad, her name, Uranus.

00:28:55.556 - 00:28:56.196

Diego: Uranus.

00:28:56.216 - 00:28:57.096

Joshua: Uranus.

00:28:57.096 - 00:28:57.396

Diego: Uranus.

00:28:57.396 - 00:28:58.476

Diego: Sailor Uranus.

00:28:58.476 - 00:28:59.356

Joshua: Uranus.

00:28:59.356 - 00:29:00.496

Diego: Sailor Uranus.

00:29:00.496 - 00:29:01.916

Diego: Uranus, the planet Uranus.

00:29:01.916 - 00:29:03.576

Diego: Oh, Jesus.

00:29:03.576 - 00:29:05.256

Diego: Do you not know how Sailor Moon functions?

00:29:05.256 - 00:29:09.476

Diego: They each have like planets or bodies, their celestial bodies that they derive their powers from.

00:29:09.516 - 00:29:11.976

Joshua: And Sailor Moon's one is the moon?

00:29:11.976 - 00:29:12.996

Diego: Yes.

00:29:12.996 - 00:29:17.076

Diego: And then Sailor Uranus, she can control wind.

00:29:17.076 - 00:29:20.336

Diego: That's one of her core powers.

00:29:20.416 - 00:29:22.076

Joshua: Why do you look so surprised?

00:29:22.076 - 00:29:23.676

Joshua: I don't know.

00:29:23.896 - 00:29:26.276

Joshua: Is Uranus, like...

00:29:26.276 - 00:29:30.536

Joshua: Because, I mean, all the planets are named after the Roman gods.

00:29:30.536 - 00:29:33.096

Joshua: So is Uranus...

00:29:33.776 - 00:29:35.136

Joshua: Does that god in Roman mythology...

00:29:35.136 - 00:29:37.536

Diego: Pretty sure it's pronounced Uranus.

00:29:37.536 - 00:29:45.856

Joshua: Does Uranus in Roman mythology, does that god, whatever, whichever god that is, does that have to do with air?

00:29:46.996 - 00:29:48.416

Diego: That I do not know.

00:29:48.416 - 00:29:50.376

<v SPEAKER_3>I'm not sure.

00:29:50.376 - 00:29:51.396

Joshua: Perhaps, perhaps.

00:29:51.396 - 00:29:52.576

Diego: Yeah, I don't know.

00:29:52.576 - 00:29:53.676

Diego: But anyway, that's one.

00:29:53.676 - 00:29:55.416

Diego: There's another example from anime.

00:29:55.416 - 00:29:58.736

Diego: But I mean, I just, I know that in anime there I have seen more.

00:30:00.316 - 00:30:07.316

Diego: Maybe in like Ninja Scroll, maybe Demon Slayer?

00:30:07.856 - 00:30:09.816

Diego: Wasn't there somebody in Demon Slayer?

00:30:09.816 - 00:30:10.676

Diego: Man, I swear to God.

00:30:10.676 - 00:30:15.236

Diego: I swear that I've seen like this kind of stuff in anime before.

00:30:15.236 - 00:30:21.776

Diego: But then again, you can find pretty much like anything in anime, I feel like, when it comes to control of elements and stuff like that.

00:30:21.776 - 00:30:22.076

Diego: Who else?

00:30:22.076 - 00:30:26.436

Diego: We got this character called Wind Dancer, who is one of the members of the New Mutants.

00:30:27.556 - 00:30:32.256

Diego: And she can control air and controlled wind and manipulate the climate overall.

00:30:33.996 - 00:30:55.056

Diego: Man, when I was reading through this stuff and preparing for the episode, I feel like if I was a wind user or an aerokinetic, if you will, one of the first things that I would learn, kind of like to have as a default in my back pocket, is the ability to suck the air out of a specific area.

00:30:57.016 - 00:30:59.736

Joshua: Well, what would that do to help you?

00:30:59.736 - 00:31:00.716

Diego: What?

00:31:00.716 - 00:31:01.976

Joshua: To take the air out of it.

00:31:01.976 - 00:31:06.776

Diego: As long as I'm fighting some sort of organic-based life form, they're done.

00:31:07.476 - 00:31:10.356

Joshua: I thought you meant in your day-to-day life.

00:31:10.356 - 00:31:11.716

Diego: No, man.

00:31:13.036 - 00:31:16.116

Diego: I want to suck the air out of the room in my day-to-day life.

00:31:16.116 - 00:31:38.736

Diego: But think about it, if all else fails, and you're fighting something that is not a robot or a spirit of some sort, if all else fails and they're defeating you, if you have that as your last resort, remove the air from the general vicinity and keep air around you, and whoever it is that's coming at you, no oxygen to the brain.

00:31:38.736 - 00:31:39.196

Diego: They're done.

00:31:39.196 - 00:31:40.296

Diego: They're going to collapse.

00:31:40.296 - 00:31:46.936

Joshua: Do you think like aerokinetics, if they take the air out of an area, how do they make it?

00:31:47.076 - 00:31:52.876

Joshua: Like, do they just force the air not to fill in the empty spot?

00:31:52.876 - 00:31:53.276

Diego: I think so, yeah.

00:31:53.276 - 00:31:54.696

Joshua: Can they like push the air back?

00:31:54.696 - 00:32:01.396

Diego: I think those people, like anybody who has was able to do that in particular, you're creating a vacuum.

00:32:01.396 - 00:32:06.456

Diego: And at that point, you're like, you're able to control air at a molecular level.

00:32:06.456 - 00:32:06.856

Joshua: Yeah.

00:32:06.856 - 00:32:07.036

Diego: Right.

00:32:07.036 - 00:32:12.096

Diego: Because you have to push the molecules out of a particular space and you create a vacuum like outer space.

00:32:12.996 - 00:32:22.156

Diego: So, yeah, like technically you're creating a little space that is like outside of this planet, right?

00:32:22.836 - 00:32:29.876

Diego: That isn't like a little exception to the atmosphere of Earth, you know?

00:32:29.876 - 00:32:31.496

Diego: That's a hell of a power, man.

00:32:31.496 - 00:32:31.976

Joshua: Yeah.

00:32:31.976 - 00:32:33.516

Diego: That's a real, real strong ability.

00:32:33.516 - 00:32:37.416

Diego: I feel like somebody like that could be like a global threat.

00:32:37.416 - 00:32:41.396

Diego: Kind of like Magneto with his EMP across the whole globe.

00:32:41.436 - 00:32:42.576

Joshua: And yeah.

00:32:42.576 - 00:32:43.136

Diego: Yeah.

00:32:43.136 - 00:32:52.836

Diego: I mean, you take away the air from the entire planet, you can, you're at, you're now a really, really big threat if you're a villain.

00:32:52.836 - 00:32:54.156

Joshua: Where do you think Magneto?

00:32:54.156 - 00:33:04.476

Joshua: I mean, because obviously there's a whole thing of like Earth and like metal, whatever, but his power, his mutation is controlling magnetic fields.

00:33:04.476 - 00:33:04.916

Diego: Right.

00:33:04.916 - 00:33:09.076

Joshua: So where do you think he would really fall under the, like, the Four Elements?

00:33:09.076 - 00:33:10.856

Diego: I don't think he does, man.

00:33:10.856 - 00:33:13.556

Diego: I think he's a whole different category.

00:33:15.176 - 00:33:17.956

Diego: I think anybody who is able to control...

00:33:20.976 - 00:33:23.816

Diego: powers?

00:33:23.816 - 00:33:24.936

Diego: No, I don't know.

00:33:24.936 - 00:33:26.556

Diego: It's just a very different thing.

00:33:26.556 - 00:33:29.136

Diego: Like, it is its own category.

00:33:29.956 - 00:33:30.816

Diego: Yeah.

00:33:30.816 - 00:33:37.856

Diego: You can't label electromagnetism underneath any one of these.

00:33:40.676 - 00:33:46.576

Diego: And I think there's other things that fall into similar spots, where it's just like they are their own element.

00:33:46.576 - 00:33:55.976

Diego: That's kind of an interesting topic to discuss, like what things are outside of the Four Elements that you can't categorize.

00:33:55.976 - 00:33:58.436

Diego: Maybe it could be like a follow-up episode we do one day.

00:33:59.276 - 00:34:02.156

<v SPEAKER_3>Perhaps, perhaps, perhaps.

00:34:02.156 - 00:34:02.576

Diego: So who else?

00:34:02.576 - 00:34:05.756

Diego: You got anyone else on your list at all?

00:34:07.196 - 00:34:17.696

Joshua: Well, I mean, I feel like users of flight, like users of flight that aren't really explained how they fly.

00:34:17.696 - 00:34:21.796

Joshua: I mean, obviously, it's never really that deep.

00:34:21.796 - 00:34:24.036

Joshua: It's just like they can just fly, right?

00:34:24.036 - 00:34:33.196

Joshua: But I feel like if you do think that deep, you have to wonder like what method are they using to fly?

00:34:33.196 - 00:34:33.716

Diego: Yeah.

00:34:33.716 - 00:34:38.216

Joshua: Like, are they like proposing, is that a word?

00:34:38.216 - 00:34:39.256

Diego: Propelling.

00:34:39.256 - 00:34:44.756

Joshua: Are they like propelling air off the ground to like launch themselves into the air?

00:34:44.756 - 00:34:47.336

Diego: Those would technically be aerokinetics.

00:34:47.336 - 00:34:47.856

Joshua: Yeah.

00:34:47.856 - 00:34:51.036

Joshua: But I mean, there's a lot of people who use flight that we don't know.

00:34:51.036 - 00:34:51.196

Joshua: Yeah.

00:34:51.436 - 00:34:53.856

Joshua: Like, how they do, so...

00:34:54.176 - 00:34:56.916

Diego: And the thing is, like, you can only do so...

00:34:56.916 - 00:34:59.936

Diego: You can only achieve that through so many methods, right?

00:34:59.936 - 00:35:03.836

Diego: Like, Magneto uses the Earth's magnetic...

00:35:03.836 - 00:35:04.296

Diego: What do you call it?

00:35:04.296 - 00:35:05.156

Diego: The...

00:35:05.156 - 00:35:06.016

Joshua: Magnetic field?

00:35:06.016 - 00:35:09.316

Diego: Magnetic field of the Earth to levitate, right?

00:35:09.316 - 00:35:11.476

Diego: So that's what he's using.

00:35:12.936 - 00:35:17.056

Diego: You can have somebody that is able to cancel gravity.

00:35:17.056 - 00:35:18.036

Joshua: Gravity, yeah.

00:35:18.336 - 00:35:21.556

Diego: But then, like, how do they hover in the air?

00:35:21.556 - 00:35:25.256

Joshua: Like, Deku with his float cork.

00:35:25.256 - 00:35:25.816

Diego: Yeah, yeah.

00:35:25.816 - 00:35:26.296

Joshua: Because that...

00:35:26.296 - 00:35:27.096

Joshua: It's not flight.

00:35:27.096 - 00:35:29.476

Joshua: It's just being able to float in the air.

00:35:29.476 - 00:35:30.036

Diego: That was...

00:35:30.036 - 00:35:32.296

Diego: That's a good example of canceling gravity.

00:35:32.296 - 00:35:36.556

Diego: And you could tell, like, he's kind of, like, just, like, floating there.

00:35:36.556 - 00:35:38.076

Diego: He's not really in control of it.

00:35:38.076 - 00:35:43.476

Joshua: Also, Ururaka, her whole thing is, like, touching something or herself.

00:35:43.476 - 00:35:45.056

Diego: Oh, yeah, to levitate it, right?

00:35:45.056 - 00:35:46.056

Joshua: Anti-gravity.

00:35:46.056 - 00:35:46.996

Diego: Oh, yeah, that's right.

00:35:47.456 - 00:35:49.016

Joshua: Like, her whole thing is just taking away the gravity.

00:35:49.016 - 00:35:51.256

<v SPEAKER_3>What's her name again?

00:35:51.256 - 00:35:53.836

Joshua: Oh, Chaco or Ururaka, or, like, her hero name.

00:35:53.836 - 00:35:55.716

Diego: Her hero name.

00:35:55.716 - 00:35:56.176

Joshua: I don't know.

00:35:56.176 - 00:35:59.236

Diego: Isn't it Urugravity or something?

00:35:59.236 - 00:36:00.016

Joshua: I don't remember.

00:36:00.016 - 00:36:02.716

Diego: But anyway, yeah, yeah, her thing is gravity, for sure.

00:36:04.156 - 00:36:10.496

Diego: Wind users are the more believable ones when it comes to being able to control themselves in midair.

00:36:10.496 - 00:36:11.876

Diego: Magneto, too, technically.

00:36:11.876 - 00:36:12.456

Joshua: Yeah.

00:36:12.456 - 00:36:13.436

Diego: He's pretty believable.

00:36:15.476 - 00:36:20.376

Diego: But there's a problem with the super family, like Superman, Supergirl, all these people.

00:36:20.376 - 00:36:27.216

Diego: There's definitely an issue with them because along the way, I'm reading this book now called Superman.

00:36:27.216 - 00:36:32.776

Diego: It's like the whole history of the character across everything, like film, comics, everything.

00:36:32.776 - 00:36:39.716

Diego: And at the very beginning, they didn't bother at all to explain any of it, any of the signs.

00:36:39.716 - 00:36:42.256

Diego: And then little by little, they started adding things.

00:36:43.436 - 00:36:54.956

Diego: And some of it, some of it, the Superman movies gave him really weird, random powers that the comics had never touched on.

00:36:54.956 - 00:37:03.596

Diego: Like the ability to turn back time and the ability to throw his Superman symbol and become this wrapping thing that traps a person.

00:37:03.596 - 00:37:05.796

Joshua: In the like, really?

00:37:05.956 - 00:37:10.936

Diego: Yeah, and the ability to kiss a woman and make her forget his secret identity.

00:37:10.936 - 00:37:13.476

Joshua: Like in the 1979 movie?

00:37:13.496 - 00:37:13.796

Joshua: Really?

00:37:13.796 - 00:37:15.556

Diego: The Richard Donner films, yeah.

00:37:15.556 - 00:37:18.056

Diego: Really weird, weird powers that they decided to give him.

00:37:18.056 - 00:37:26.556

Diego: It was like this random catch-all character that you could basically like throw whatever power and everybody's gonna believe it because he's Superman.

00:37:26.556 - 00:37:30.456

Joshua: You think just because, I mean, his name is Superman.

00:37:30.456 - 00:37:38.956

Joshua: If you really dissect that name, you think they just thought, oh, he's like the most super version of a man.

00:37:38.956 - 00:37:40.356

Joshua: He can do anything.

00:37:40.356 - 00:37:40.856

Diego: I guess.

00:37:40.856 - 00:37:42.856

Joshua: Like Superman, he can do anything.

00:37:42.856 - 00:37:46.456

Diego: Yeah, every man wants to make women forget, right?

00:37:46.456 - 00:37:47.436

Diego: No?

00:37:47.436 - 00:37:48.136

Diego: Hello?

00:37:48.136 - 00:37:49.636

Diego: Anybody still listening after that cut?

00:37:49.636 - 00:37:50.556

Diego: No, okay.

00:37:50.556 - 00:37:50.816

Diego: Yeah.

00:37:50.816 - 00:37:51.816

Diego: No, I don't know, man.

00:37:51.956 - 00:37:52.796

Diego: It's really weird.

00:37:52.796 - 00:37:53.316

Diego: It really is.

00:37:53.316 - 00:38:00.356

Diego: But anyway, along the way, at some point, they started bringing in the explanation, like the scientific quote unquote explanations for his powers.

00:38:00.576 - 00:38:00.756

Joshua: Yeah.

00:38:00.756 - 00:38:14.096

Diego: So like at some point in the, I don't know, it was like in the 70s or 80s, they introduced the whole idea of, but probably in the 80s, they introduced a whole idea that one gives a Kryptonian super abilities is the sun.

00:38:14.096 - 00:38:14.456

Joshua: Yeah.

00:38:14.456 - 00:38:14.716

Diego: Right.

00:38:14.716 - 00:38:16.696

Diego: They had a red sun, we have a yellow sun.

00:38:16.696 - 00:38:22.256

Diego: And so being exposed to a yellow sun, that different radiation makes their anatomy act differently.

00:38:23.636 - 00:38:32.816

Diego: And, you know, okay, that, it's comic logic, so I'm not going to, like, you know, bust my head too hard for trying to make sense out of it.

00:38:32.816 - 00:38:45.136

Diego: But you can kind of like use that as a nice little catch-all explanation for like, okay, that's how, you know, they can throw radiation from their eyes and that's how they can have like invulnerable skin.

00:38:45.176 - 00:38:54.196

Joshua: Wait, so they only have, they only like have that super anatomy when they're exposed to the yellow sun?

00:38:54.196 - 00:38:55.256

Diego: Yeah.

00:38:55.256 - 00:38:59.216

Joshua: I thought the yellow sun just like makes it more strong.

00:39:00.336 - 00:39:03.236

Joshua: So wait, on Krypton, they don't have those powers?

00:39:03.236 - 00:39:05.836

Diego: No, they're not super powered on Krypton.

00:39:05.836 - 00:39:06.736

Joshua: Oh.

00:39:06.736 - 00:39:09.456

Diego: They're just highly advanced technologically, but they're not super powered.

00:39:10.956 - 00:39:13.636

Diego: And then, like, remember Flashpoint?

00:39:13.636 - 00:39:13.996

Joshua: Yeah.

00:39:13.996 - 00:39:15.736

Diego: The Superman from that world?

00:39:15.736 - 00:39:19.376

Diego: That they had them locked in with red sun radiation at all times?

00:39:19.376 - 00:39:19.876

Joshua: Yeah.

00:39:19.876 - 00:39:21.776

Diego: They had no powers at all?

00:39:21.776 - 00:39:34.616

Diego: So they've tried to explain it, but even that, like, that has no explanation at all for why they fly, which is where we were going with this, or explanation for how they have that massive breath for that matter.

00:39:35.116 - 00:39:35.576

Joshua: Yeah.

00:39:35.576 - 00:39:36.016

Diego: Like, what?

00:39:36.016 - 00:39:40.896

Diego: Does the yellow sun radiation make their lungs function in a superpower way?

00:39:40.896 - 00:39:41.496

Diego: I guess?

00:39:41.496 - 00:39:42.516

Diego: I don't know, man.

00:39:42.516 - 00:39:43.736

Diego: It's kind of weird.

00:39:43.736 - 00:39:49.256

Diego: But, yeah, there is, like, zero explanation for how Superman flies.

00:39:49.256 - 00:39:49.896

Joshua: Yeah.

00:39:49.896 - 00:39:52.636

Diego: He definitely has nothing to do with wind.

00:39:52.636 - 00:39:56.296

Diego: If it has anything to do with gravity, it wouldn't explain how he has perfect control.

00:39:56.296 - 00:39:59.376

Diego: How he's able to accelerate, like, at will.

00:39:59.376 - 00:40:00.116

Joshua: Yeah.

00:40:00.116 - 00:40:05.236

Diego: I feel like it's a lot easier with wind in the mix and control of wind.

00:40:05.236 - 00:40:13.116

Diego: It's a lot easier to explain flight and to explain acceleration and to explain, like, a lot of things, you know, like control in mid-air.

00:40:14.616 - 00:40:15.716

Diego: Captain Planet.

00:40:15.716 - 00:40:17.776

Diego: Yes, he is our hero.

00:40:17.776 - 00:40:18.656

Joshua: Captain Planet.

00:40:18.656 - 00:40:21.116

Diego: He's going to bring pollution down to zero.

00:40:21.116 - 00:40:23.836

Joshua: Yeah, with the help of Mahti.

00:40:23.836 - 00:40:25.696

Diego: No, we're not talking about Mahti today, son.

00:40:25.696 - 00:40:26.976

Diego: We're talking about Linka today.

00:40:27.256 - 00:40:28.016

Diego: Oh.

00:40:28.016 - 00:40:29.036

Diego: Linka.

00:40:29.036 - 00:40:29.576

Joshua: Linka.

00:40:29.576 - 00:40:30.396

Diego: Linka, son.

00:40:30.396 - 00:40:31.636

Diego: Russia's in the house.

00:40:31.636 - 00:40:32.616

Diego: Okay.

00:40:32.616 - 00:40:39.056

Diego: Yes, she is a Russian member of the Captain Planet squad.

00:40:39.056 - 00:40:47.816

Diego: She received the wind ring that allows her to control wind from a bird while she was playing songs on her electric guitar.

00:40:47.816 - 00:40:49.396

Diego: That is just badassery right there.

00:40:49.396 - 00:40:50.696

Joshua: Wait, the bird dropped her?

00:40:50.696 - 00:40:52.396

Diego: The bird just brought the ring to her.

00:40:52.396 - 00:40:53.116

Diego: Come on, bro.

00:40:53.116 - 00:40:54.096

Diego: That is so cool.

00:40:54.096 - 00:40:55.416

Diego: What was Mahti doing?

00:40:55.416 - 00:40:56.556

Diego: What was Mahti doing?

00:40:56.676 - 00:40:58.756

Diego: Was he like listening to his heart?

00:40:58.756 - 00:41:02.116

Diego: What was he doing when he was handed this thing?

00:41:02.116 - 00:41:09.816

Diego: Because this woman was literally making sound travel through the wind, and then a bird heard it and came and gave her a magic ring.

00:41:09.816 - 00:41:11.196

Joshua: I don't know if it's that deep.

00:41:11.196 - 00:41:13.496

Joshua: I don't think it's that deep that she was making sound.

00:41:13.496 - 00:41:14.876

Joshua: I think she was just playing her guitar.

00:41:14.876 - 00:41:16.036

Diego: It is for me, okay?

00:41:16.036 - 00:41:17.456

Diego: It is for me.

00:41:17.456 - 00:41:23.776

Diego: And of course, she is one of the more powerful ring users, you know, from the Captain Planet team.

00:41:25.656 - 00:41:30.856

Diego: Man, I was about to say so much to make a Captain Planet movie, but no, they probably shouldn't.

00:41:30.876 - 00:41:33.936

Diego: I feel like those themes are not going to land very well.

00:41:35.396 - 00:41:37.156

Diego: Well, no, you know what?

00:41:37.156 - 00:41:42.996

Diego: With all the climate change stuff going on right now, they could pull off a pretty dope movie, I think.

00:41:42.996 - 00:41:43.536

Diego: Captain Planet.

00:41:43.536 - 00:41:46.556

Diego: But then again, it's always the cheesiness with your powers combined.

00:41:46.916 - 00:41:52.676

Joshua: You think they could, like, do, you think they could, like, make Mahti actually do something if they made a Captain Planet movie?

00:41:53.596 - 00:41:55.656

Diego: Man, give it to the Russo brothers.

00:41:55.656 - 00:41:56.356

Diego: See what they do.

00:41:56.356 - 00:41:58.836

Diego: Marcus McFeely and the Russo brothers.

00:41:58.836 - 00:42:02.256

Diego: Let them write and direct the brilliant iteration of Captain Planet.

00:42:02.256 - 00:42:03.236

Joshua: Yeah.

00:42:03.236 - 00:42:10.356

Diego: But anyway, yeah, that's, of course, you know, we got to mention the Captain Planet squad, and luckily today we got to mention a real powerful one.

00:42:10.356 - 00:42:12.196

Diego: Linka is definitely powerful.

00:42:12.196 - 00:42:15.876

Diego: She uses that ring thing pretty cool in a pretty cool way.

00:42:17.076 - 00:42:26.116

Diego: So yeah, man, anything else that we haven't mentioned, any other characters that we haven't mentioned when it comes to the element of wind?

00:42:28.996 - 00:42:40.916

Diego: It's interesting that both wind users and water users can technically achieve ice and cold.

00:42:42.296 - 00:42:46.016

Joshua: Well, I get how wind users could achieve cold, but how ice?

00:42:47.736 - 00:42:51.836

Diego: Because if you're able to control them...

00:42:51.836 - 00:42:53.496

Joshua: Well, molecules?

00:42:53.496 - 00:42:57.196

Diego: Well, no, how ice by super blasting water with cold air.

00:42:57.196 - 00:43:10.976

Diego: If you're able to control the molecules, because technically, if I remember science class correctly, like what makes air cold or hot is the vibration of the molecules of air.

00:43:10.976 - 00:43:15.756

Diego: Like if the atoms or something, like if they're vibrating at a certain level, they'll be hot.

00:43:15.756 - 00:43:16.056

Diego: Yeah.

00:43:16.056 - 00:43:20.276

Joshua: So if you like still the molecules, it would make the air...

00:43:20.976 - 00:43:21.616

Joshua: Yeah.

00:43:21.616 - 00:43:24.776

Joshua: So you could change the temperature of the air.

00:43:24.776 - 00:43:25.016

Diego: Yeah.

00:43:25.016 - 00:43:28.036

Diego: And thus freeze water and that sort of thing.

00:43:28.036 - 00:43:28.376

Diego: Yeah.

00:43:28.376 - 00:43:29.356

Diego: It's pretty interesting.

00:43:29.356 - 00:43:30.356

Diego: That's another thing, actually.

00:43:30.396 - 00:43:31.616

Diego: That's another really powerful thing.

00:43:31.616 - 00:43:47.116

Diego: Like if you're able to affect the molecules that way, then you could shut a person down, like an enemy down without even getting close to them, because you can only tolerate hot air so much or cold air.

00:43:47.116 - 00:43:47.876

Diego: Right?

00:43:47.876 - 00:43:49.916

Diego: Like there's a whole like thin air thing.

00:43:49.916 - 00:43:52.616

Diego: When the air is really, really cold, it becomes difficult to breathe.

00:43:52.616 - 00:43:53.216

Joshua: Yeah.

00:43:53.216 - 00:43:55.196

Diego: Yeah.

00:43:55.196 - 00:43:55.936

Diego: And you can do a lot.

00:43:55.936 - 00:43:57.316

Diego: It could cause a lot of things.

00:43:57.316 - 00:44:00.896

Diego: Dehydration, if you heat up the air enough, you know, all that kind of stuff.

00:44:00.896 - 00:44:02.136

Diego: It's pretty interesting, man.

00:44:02.136 - 00:44:11.736

Diego: Like depending on how deep the control of air and wind actually is, you can you can do quite a bit with with that ability.

00:44:11.736 - 00:44:15.796

Joshua: Are you going to are you going to dump the container full of air on me now?

00:44:15.796 - 00:44:17.256

Diego: I'll blow some air your way.

00:44:17.256 - 00:44:17.856

Joshua: OK.

00:44:17.856 - 00:44:19.676

Diego: I'll ask my friend to teach me his ability.

00:44:19.676 - 00:44:20.316

Joshua: OK.

00:44:20.316 - 00:44:22.836

Joshua: Your friend, your friend, not me, not not not you.

00:44:22.836 - 00:44:24.716

Diego: No, I'm learning from my friend.

00:44:24.796 - 00:44:27.496

<v SPEAKER_3>I want to become a flatulence medic.

00:44:27.496 - 00:44:31.576

<v SPEAKER_3>That's not we can make it a word.

00:44:31.576 - 00:44:34.016

Joshua: We could like call up Oxford Dictionary right now.

00:44:34.016 - 00:44:34.576

Diego: Yes.

00:44:34.576 - 00:44:38.236

Diego: I mean, there's been sillier words added to the dictionary.

00:44:38.236 - 00:44:42.076

Diego: Yeah, like, yeah, I guess probably a word in the dictionary by this point.

00:44:42.076 - 00:44:44.756

Joshua: Well, I mean, OK, yeah, was always a word.

00:44:44.756 - 00:44:45.816

Diego: Well, yapping.

00:44:45.816 - 00:44:46.516

Joshua: Yeah.

00:44:46.516 - 00:44:46.956

Diego: Oh, I guess.

00:44:46.956 - 00:44:47.396

Diego: Yeah, too.

00:44:48.296 - 00:44:54.216

Joshua: But like to the app, like the verb to like the meaning of yapp, like the new meaning of yapp.

00:44:54.216 - 00:44:56.436

Diego: I think this whole conversation is the app.

00:44:56.436 - 00:44:56.696

Diego: Yeah.

00:44:57.576 - 00:44:58.136

Joshua: OK.

00:44:58.136 - 00:44:58.296

Diego: Yeah.

00:45:04.557 - 00:45:10.777

Diego: Thank you all for listening to this episode of Geekology 101, all focused on the element of wind.

00:45:10.777 - 00:45:19.357

Diego: Tune in in our next episode for the conclusion of the Four Elements series, where we're gonna be talking about fire, the wagle.

00:45:19.357 - 00:45:26.677

Diego: If you haven't caught the previous two episodes, the episode on water, the episode on earth, you can go ahead and take advantage and visit our website.

00:45:26.677 - 00:45:27.857

Diego: It's geekology101.com.

00:45:30.117 - 00:45:33.797

Diego: There, you'll be able to listen to episodes, watch episodes.

00:45:33.857 - 00:45:35.717

Diego: We got our videos up there.

00:45:35.717 - 00:45:38.157

Diego: We got all the ways that you can subscribe and follow us.

00:45:38.157 - 00:45:43.517

Diego: You can download transcripts of our episodes and get to know a little bit about Joshua and myself.

00:45:43.517 - 00:45:49.037

Diego: Down at the bottom of the homepage, you'll see a contact form so you can join the geeky conversation that way.

00:45:49.037 - 00:45:56.137

Joshua: Or if you want to hear some of your more traditional means, you can contact us at g101podcasts at gmail.com.

00:45:56.137 - 00:45:58.997

Diego: Thank you all for listening, and we will catch you in the next episode.

00:45:58.997 - 00:46:00.217

Diego: We are gone with the wind.

00:46:00.397 - 00:46:03.437

Joshua: Flatula Kinetic, Fletchula Kinetic.

00:46:03.437 - 00:46:04.397

Joshua: Your friend, not you.

00:46:04.397 - 00:46:05.797

Diego: My friend, not me.

00:46:05.797 - 00:46:06.317

Joshua: Yeah.

00:46:06.317 - 00:46:06.577

Diego: Not me.

00:46:07.257 - 00:46:07.957

Diego: This is still YAP.

.
